

Bicycle Engineering and Technology

A confirmatory license must be submitted with certain patent applications. This document is confirmatory that the Government has a nonexclusive, nontransferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States the subject invention throughout the world. (37 CFR 401.14(b))

To create and submit a confirmatory license in iEdison:

1. After a patent is reported, click the "Print Confirmatory License" button on the confirmation page. iEdison will generate a confirmatory license that includes relevant invention and patent information
2. Download the confirmatory license and email it to the Senior IP and Grant Compliance Officer for signature
3. After the confirmatory license is signed, upload it to the iEdison "New Confirmatory License File" in the patent record by selecting "PDF" from the dropdown, and clicking the "Choose File" button
