

Geological Engineering

A state-of-the-art lab allows students to simulate real-world procedures under the guidance of experts in the field .

The world needs more nurses. Our degrees produce some of the best in the field. With entry points to our programs at every level of college education, you can start saving lives now.

Learn from the Best in the Field

Our programs prepare professional nurses who can meet the health care needs of a culturally diverse society. Many of our faculty are still actively practicing in healthcare settings and bring that knowledge directly to their students in the classroom.

Clinical Experience

Our students take what they learn inside the classroom directly into patient care. Students already working in the field may be able to use their current placements in their community or work with many of our local partners:

Rochester Regional Health

Oak Orchard Health

University of Rochester Medical Center (URMC)

Local Area School Districts

Pursue a Doctorate

Earn a doctorate in your scrubs. Our 100% online Doctorate of Nursing Program is the first doctorate level nursing program in the SUNY comprehensive sector and serves as the most advanced degree in the field of nursing.
