

Handbook of Cosmetic Science and Technology

Congratulations! You are ready to graduate from nursing school to become a nurse. However, before you start practicing, you will need to take the state board exam for registered nurses, known as the NCLEX. Before you take the NCLEX, your state's Board of Nurses (BON) must approve your eligibility. Once you submit your application, you must register with Pearson VUE as soon as possible. If the BON approves your application, you will be sent an Authorization to Test (ATT). Use the ATT to schedule an exam appointment.
