

Introduction to Chemical Engineering Kinetics and Reactor Design

Recent Examples on the Web

The deal gives the U.K. pharma giant global rights to the baxdrostat cardiorenal drug and comes barely a year after CinCor went public on Nasdaq. â€” Laura Cooper, WSJ, 9 Jan. 2023

Big pharma cashing in on experiences many take as spiritual rubs some the wrong way. â€” Justin Higginbottom, The New Republic, 3 Jan. 2023

The British pharma company AstraZeneca will occupy one of two new office-and-lab buildings, relocating about 1,600 of its employees from Waltham and Boston. â€” Scott Kirsner, BostonGlobe.com, 13 Nov. 2022

Swiss pharma firm Merck is also testing an antiviral tablet to treat Covid-19, molnupiravir, and expects data from late-stage clinical trials by the end of the year. â€” Robert Hart, Forbes, 27 Sep. 2021

Energy companies, big industries, big pharma and the like are the ones pushing this agenda of the Court. â€” Richard Schiffman, Scientific American, 8 July 2022

The argument goes that biotech has become so cheap that big pharmaâ€”staring down a patent cliff and armed with hundreds of billions of dollars of dry powder for acquisitionsâ€”will come to the rescue. â€” David Wainer, WSJ, 30 June 2022

If nothing is passed by the time the Senate goes into recess in August, investors will start feeling more comfortable upping their pharma and biotech bets in anticipation of a poor showing for Democrats in the fall. â€” David Wainer, WSJ, 17 June 2022

Citizens of rich countries are the primary market for pharmaceutical companies, and covid-19 vaccines helped big pharma improve its reputation. â€” Annalisa Merelli, Quartz, 28 Apr. 2022
