By adopting smaller and smaller elements of motion we only approach a solution of the problem , but never reach it.

So there arose before me a problem , a clear and simple problem : THIS IS SO EASY, WHY NOT KEEP IT UP WHEN YOU GET BACK ON LAND?

"Very well, old Barbicane," replied Michel; "they might have cut off my head, beginning at my feet, before they could have made me solve that problem ."

She knew the post-nuptial problem of retaining a husband's love, as few wives of any class knew it, just as she knew the pre-nuptial problem of selecting a husband, as few girls of the working class knew it.

And as soon as silence came, I found myself in front of this extraordinary mass of faces, thinking not of them, but of that long and unhappy chapter in our country's history which followed the one great structural mistake of the Fathers of the Republic; thinking of the one continuous great problem that generations of statesmen had wrangled over, and a million men fought about, and that had so dwarfed the mass of English men in the Southern States as to hold them back a hundred years behind their fellows in every other part of the world--in England, in Australia, and in the Northern and Western States; I was thinking of this dark shadow that had oppressed every large-minded statesman from Jefferson to Lincoln.

You may readily understand that I have occupied my mind with this subject, which was, necessarily, so interesting to me, but I have not been able to solve the problem with the appliances now known to mechanical science.

Levin was insufferably bored that evening with the ladies; he was stirred as he had never been before by the idea that the dissatisfaction he was feeling with his system of managing his land was not an exceptional case, but the general condition of things in Russia; that the organization of some relation of the laborers to the soil in which they would work, as with the peasant he had met half-way to the Sviazhskys', was not a dream, but a problem which must be solved.

Since then the most conservative engineer will discuss the problem of transatlantic telephony.

Their interest in psychology is naturally centred in the relation of consciousness to its object, a problem which, properly, belongs rather to theory of knowledge.

I have many friends in America, I feel a grateful interest in the country, I hope and believe it will successfully work out a problem of the highest importance to the whole human race.

And another problem : why do I call you "gentlemen," why do I address you as though you really were my readers?
