

Race After Technology: Abolitionist Tools for the New Jim Code

the pronoun of the second person singular or plural, used of the person or persons being addressed, in the nominative or objective case: You are the highest bidder. It is you who are to blame. We can't help you. This package came for you. Did she give you the book?

one; anyone; people in general: a tiny animal you can't even see.

(used in apposition with the subject of a sentence, sometimes repeated for emphasis following the subject): You children pay attention. You rascal, you!
